MEMORANDUM FOR: Chief, Programs Staff, OSA

SUBJECT: SIP Funding for FY 1/64

25X1D

1. [ ] AD/OEL, advised me, 24 January, that Mr. Kirkpatrick has ruled that funding for the [ ] which he approved this week, must come from "DIT/S&T funds".

2. [ ] tells me that out of the total amount of \$400K, OEL can pony up about [ ] by eliminating some planned BDA studies. Can you give me an idea if there is any source of funds in the OSA chest which could be tapped for any amount at all to support this.

25X1

3. I gather that from what [ ] said that Mr. Kirkpatrick has not ruled out an eventual attack upon the Director's Reserve for whatever monies cannot be provided by DIT/S&T, but that this would be a last resort. I agreed with [ ] that for us to attempt to ferret funds from DNRG for this purpose at this time would probably be counter-productive in the light of the most recent inputs from that quarter on scarcity of monies. If you feel otherwise, please let me know.
